

16 May 2022

To whom it may concern:

During these times of crises in Ukraine many animals are suffering from abandonment or dispossession and need help. Likewise, many Ukrainian refugees (approximately 5 million to date) are fleeing the country- many have brought their pets with them to bordering countries such as Poland.

RSPCA Queensland Australia acknowledges the work being undertaken by the Australian war animal memorial organization (AWAMO) to aid these refugee animals in-situ and fully supports their efforts.

Yours sincerely
